The diagram illustrates the assembly of a LEGO Technic beam in three steps:

- Step 1:** A grey 1x10 Technic beam is shown above a black 1x4 Technic connector plate. Two red arrows point from the first and second holes of the connector plate to the first and second holes of the beam, indicating where to insert pins.
- Step 2:** The grey beam is shown above a yellow 1x10 Technic beam. A red rectangular frame highlights the area where the grey beam's second hole aligns with the yellow beam's second hole. Two red arrows point from the first and second holes of the yellow beam to the first and second holes of the grey beam, indicating where to insert pins.
- Step 3:** The final assembly is shown, consisting of the grey beam connected to the yellow beam. The grey beam is positioned on top of the yellow beam, and the two are joined by pins inserted into the first and second holes of each.
